## THE CAPITAL.

[By Telegraph to the Pittsburgh Gazette.]

WASHINGTON, May 20, 1869.

The Collector at the port of Philadelphia has been directed by the Secretary of the Treasury to detain the steamer Florida, now lying at Chester, in the Delaware river, from leaving that port, it being suspected that she is in the interest of the Cubans.

The President has appointed Samuel W. Harned United States Consul at Rochelle.

The custom receipts from May 10th to the 15th, inclusive, were $3,595,858.

W. Kryanowski has been commissioned Supervisor of Internal Revenue for Georgia, Alabama and Florida.

The Sub-Judiciary Committee of the House leave next Monday for Alabama, to take testimony in the case of Judge Busteed.

The Secretary of the Treasury has directed the Assistant Treasurer at New York to sell gold hereafter, until otherwise ordered, to the extent of two million dollars a week, instead of one million, as heretofore, on account of the surplus of gold still accumulating in the Treasury.

Major Moore, of San Antonia, Texas, had an interview with President Grant this morning. The Major assured the President that it would be folly to expect the Republican party to gain a victory in case an election was ordered in Texas immediately, and urged delay. The President stated there would be no election in Texas before November, in any event, and also that Gen. Reynolds had not recommended an early election, as had been intimated. Major Moore was Assistant Adjutant General of Sheridan's First Cavalry Division, Department of the Gulf, in 1865, and was listened to by the President with much interest.

Hon. Samuel Shellabarger, Minister to Portugal, arrived here to-day to receive his instructions. He had an interview with the President and Secretary Fish.

## CUBA.

**A Republic Formally Established—Proclamation of President Cespedes—Mutiny Among Spanish Troops—Expedition from Yucatan.**

[By Telegraph to the Pittsburgh Gazette.]

NEW YORK, May 20.—A letter dated the 15th, states that the Republic of Cuba has been formally established by a Congress held at Gurimano, a small town of the Central department of the Island, about twenty leagues east of Puerto Principe. Cespedes was elected President of the Republic, and General Quesada Commander-in-Chief of the forces. Don Fracisco V. Aquilara has been appointed Secretary of State and War.

Cespedes issued a stirring proclamation on assuming the Presidency He says: "In the act of beginning the struggle with the oppressors, Cuba has assumed the solemn duty to consummate her independence or perish in the attempt, and in giving herself a democratic government, she obligates herself to become republican. The double obligation, contracted in the presence of free America, before the liberal world, and what is more, before our own consciences, signifies our determination to be heroic and virtuous. Cubans, on your heroism I rely for the consummation of our independence, and on your virtue count to consolidate this republic."

Quesada closes his proclamation to the Cuban army thus: "We have to combat with the assassins of old women, and of children, with the mutilators of the dead, with idolators of gold. Cubans, if you would save your honor and that of your families, if you would conquor forever your liberty, be soldiers. War leads you to peace and to happiness. Inertia precipitates you to misfortune and to dishonor."

Private advices are very flattering for the insurgents They have succeeded in producing dissatisfaction and mutiny among the Spanish troops, and they are deserting in large numbers. The insurrection was also spreading throughout the western part of the island. One thousand men, well armed, had succeeded, on the 8th instant, in effecting a landing on the west side of the island, coming from Yucatan. Information comes from reliable persons in Havana that many of the Spanish officers are getting dissatisfied, and that Captain General Dulce is becoming greatly alarmed for his own safety.

HAVANA, May 20.—The reports of the landing of filibusters which are in circulation cannot be traced to any authentic source. No expedition has landed near Sagua. The steamer Salvador has gone to some other point. It is impossible for expeditions to effect a landing at any point on the coast between Havana and Neuvitas, as Spanish cruisers are very numerous along that line, and in any other part of the Island it would be difficult for expeditions to find a foothold, owing to the watchfulness of the government.

Sympathisers with the revolution complain of Admiral Hoff's dispatches, published in New York papers, but the intelligence given in those dispatches is as reliable and correct as can be obtained under the circumstances, and can be objected to only because it discredits the exaggerated reports which are set afloat by Cuban partizans. Admiral Hoff enjoys the unlimited confidence of American residents here.

The report is officially confirmed that the rebels have burned the town of Mauicaragua.

**A Patent Case—Baking Bread in Court.**

[By Telegraph to the Pittsburgh Gazette.]

NEW YORK, May 20.—In the United States Circuit Court to-day, before Judge Blatchford, the trial of the Rumford Chemical Works, of Providence, Rhode Island against John E. Lauer, for infringement of Professor Harsford's invention of a new leaven, was commenced. Both parties hold patents for a new leaven, the plaintiffs claiming defendant's patent is really identical to Prof. Harsford's, and therefore invalid. Prof. Doremans undertook to demonstrate this by a series of chemical processes, and a novel feature was the baking of a loaf of bread in the presence of the Court, raised by this leaven. The case was adjourned until Wednesday next.

## MEMPHIS.

**The Commercial Convention—Third Day's Session—Great Accession of Delegates—Report on Southern Pacific Railroad Project.**

[By Telegraph to the Pittsburgh Gazette.]

MEMPHIS, May 20.—Delegates continue to arrive. They number now nearly one thousand one hundred. Among those arriving are delegates from Illinois and Pennsylvania. The Convention opened in regular form. After the completion of the Committee of one from each State to select a time and place for the next meeting of the Convention, Judge Williams, of Kentucky, offered a resolution appointing a Committee of five to memorialize Congress for aid in removing obstructions from the Tennessee river and the canal and around the shoals. Referred.

A communication was received from the Memphis and Charleston Railroad, extending the time for the return of the delegates to the 1st of June.

Under a call of States the following resolutions were read and referred, together with many not read:

That the standing Committees hold over until next session, the chairmen of which shall have power to call them together any time, and requesting railroads to furnish transportation.

Asking each State to hold Conventions and appoint ten delegates to a General Commercial Convention.

For a committee to ascertain the expediency of forming a permanent convention, to meet from time to time.

Requesting Southern railroads to hold a convention for the purpose of establishing an immigration corporation, and taking means to systematize labor.

This was ably supported by Col. Cole, of Georgia, and passed under a suspension of the rules.

Asking aid for the Augusta and Brunswick Railroad.

For Government aid to Selma and Memphis Railroad.

For a Committee of five to memorialize Congress on all subjects endorsed by the Convention, and that Governor Patton, of Alabama, be Chairman.

Governor Patton offered a resolution, which passed under a suspension of the rules, to memorialize Congress for the repeal of the direct land tax of 1862.

At the expiration of the morning hour the Committee on Southern Pacific Railroads made the following report, which was unanimously adopted, amid great applause:

*Mr. President and Gentlemen of the Convention:* Your Committee, to whom was referred the matters relating to Pacific Railroads, respectfully report the following resolutions for your consideration:

*Resolved*, That in the opinion of this Convention the interests of the whole country, especially the Southern States, could be served by a main trunk line from Santiago, California, through to Junction river, Colorado and Gila, and and along the valley of Gila south of that river to El Paso on the Rio Grande, thence to a convenient central point near the thirty-seventh degree of latitude east of Arizona river, in the State of Texas, from which main trunk feeder roads should lead from St. Louis, Cairo, Memphis, Vicksburg, New Orleans and other points, all of which feeder roads, having equal rights of connection with said main trunks, while similar feeder roads from San Francisco and other points on the Pacific coast should have similar equal rights of connection.

*Resolved*, That the present Convention be requested to forward a copy of this resolution to the President and Vice President, and Speaker of the House of Representatives, and request them to present the same to the respective Houses of Congress.

The Committee, which was composed of representatives from seventeen states, including three members of Congress, give the following reasons for the report:

*First.* It is the shortest line connecting the Gulf of Mexico and the Valley of the Mississippi with the coast of the Pacific Ocean.

*Second.* It is the line of most easy grades and of cheapest construction.

*Third.* It passes through a less inhospitable and barren country and over more fertile and hospitable lands than any unoccupied route proposed.

*Fourth.* The line is touched by water transportation at these points affording the greatest facilities for construction, and, consequently, hastening and cheapening such construction.

*Fifth.* This line will open to the world the great mineral wealth of Arizona and Sonora, and render more valuable the great stock raising districts of Texas, New Mexico and Northern Mexico, and thus enjoy unrivaled traffic.

*Sixth.* It will inevitably attract numerous feeders from the neighboring Republic of Mexico, and thus not only stimulate enterprise there, but secure to our shipping ports a greater portion of the bullion which now seeks hazardous conductors and smuggling vessels.

*Seventh.* It will open a new cotton growing area in Texas, New Mexico and Arizona, in lands of the cotton growing belt that were useless for lack of facilities for transportation.

*Eighth.* It is well known that some roads which would be among the feeder roads referred to in the resolution, have not only been projected, but are already in active course of construction, without waiting for government subsidy or encouragement.

*Ninth.* Last though not least, the construction of this route, more than all else beside, will encourage what we feel to be the great necessity of the hour, immigration and direct trade with Europe.

After the applause caused by their adoption, the Committee on Direct Trade with Europe reported in favor of the formation of steamship lines from Southern ports, which should be encouraged by subscription; that said lines should be patronized by the planters and merchants of the South; and approving the scheme inaugurated between Norfolk and Liverpool, organized at the Norfolk Convention.

Dr. Lindsay presented a minority report, setting forth the claims of Charlesport, New Orleans, Savannah and Mobile, which elicited a long debate, participated in by himself, Col. Lamb, of Virginia, General Lawton and Col. Coles, of Georgia, Col. Marcy, of Virginia, John Everett, England, and others, until 6:30, when the Convention adjourned.

—At Boston yesterday the American and Foreign Bible Society formed a union with the American Baptist Publication Society. The latter is in a flourishing condition and its receipts the past year were nearly $38,000 above the previous year.

**Republican State Convention—A Tremultuous Scene—Bitter Rivalry Between Gubernatorial Candidates.**

[By Telegraph to the Pittsburgh Gazette.]

NASHVILLE, May 20.—The delegates to the Republican State Convention met at the Capitol this morning. Having been called to order, Mr. Pearce, of Knoxville, a friend of Governor Sentor, was temporally appointed Chairman. Some of the delegates refused to recognize his appointment, and a scene of much confusion followed. Without making any progress towards organization, an adjournment to two o'clock was carried.

The meeting in the afternoon was but a repetition of the noisy and tumultous scene of the morning. Attempts were made by several speakers to throw oil on the troubled waters, but unsuccessfully. Late in the afternoon a personal difficulty occurred between two delegates, Mr. Neism, of Knox, and R. R. Butler, both gentlemen drawing pistols. This increased the hub-bub, in the midst of which a motion to adjourn was made and carried.

The rivalry between Sentor and Stokes is exceedingly bitter, but it is reported to night that Sentor intends to put a stop to it by withdrawing. The friends of Stokes have been confident of his nomination, but the result of Sentor's withdrawal may be the nomination of a new man on whom all can harmonize.

—Hon. Mr. Young's bill to incorporate a company to lay telegraph wires from Montreal to England via Greenland, Iceland and Tara Island has been favorably received by the Committee on Canals, Railways and Telegraph Lines, of the New Dominion Parliament, and adopted. Mr. Young telegraphed the result of the enterprise to friends in Copenhagen.

**Meeting of the Old and New School General Assemblies at New York—Over Five Hundred Delegates in Attendance.**

[By Telegraph to the Pittsburgh Gazette.]

NEW YORK, May 20.—The General Assembly of the Old School Presbyterian Church met in the Brick Presbyterian Church, corner of Fifth avenue and Thirty-seventh street, this morning, with over three hundred delegates in attendance, representing the Synods of Allegheny, Albany, Baltimore, Buffalo, Chicago, Cincinnati, Illinois, Indiana, Iowa, Kansas, Kentucky, Missouri, Nashville, New Jersey, New York, Northern Indiana, Ohio, Pacific, Philadelphia, Pittsburgh, St. Paul, Sandusky, Southern Iowa, Wheeling and Wisconsin.

At eleven o'clock the introductory services began, conducted by the Moderator of the last Assembly, Dr. Musgrave, and Rev. Dr. Jacobus, of Allegheny City. Prayer was offered by Dr. Gardener Spring, pastor of the church, the oldest minister present.

The retiring Moderator then preached the opening sermon from the following text: Mark xvi: 16. "He that believeth and is baptized shall be saved; but he that believeth not shall be damned." The sermon was purely doctrinal and contained no allusion to the objects of the Convention.

The Rev. Mr. Murray, Jr., pastor of the Brick Church, announced that prayer meetings will be held in that church every morning at eight o'clock, during the session of the Assembly. He also invited families who attend all Presbyterian churches in the city to join the Committee of Arrangements in getting up a social reception to the delegates to the Assembly, at Apollo Hall, Monday evening next.

The business session commenced at 1 o'clock. Opened with prayer by the Moderator. The roll of delegates was called, and a Committee on Elections appointed, to whom was referred the Commissions and Delegates.

The Committee of Elections is Rev. L. Miller, Rev. E W. Fisk and John B. Jenner, of Buffalo.

A new Presbytery was announced as formed, in accordance with the order of the last Assembly, namely, Santa Fe. It was recognized, and its delegates took their seats.

It was resolved that sessions be held from 9 to 12 P. M., and from 2½ to 5 P. M. Recess until half past three.

At the afternoon session a resolution was passed appointing a committee of ten to confer with the New School Assembly on the question of re-union, and ascertain what action would be necessary to accomplish the result. After which the Assembly adjourned.

THE NEW SCHOOL ASSEMBLY.

At the opening of the New School General Assembly, in Rev. Dr. Hatfield's church, corner Park avenue and Thirty-fifth street, the Rev. Dr. Jonathan F. Stearns, Moderator of the last Assembly, occupied the chair. Rev. E. T. Hatfield, D. D., of New York, acted as Stated Clerk, and Rev. J. Glentworth Butler, D. D., as permanent Clerk. There was a large attendance of delegates and the galleries were crowded with spectators, to whom the proceedings were evidently of the greatest interest. It is expected two hundred and fifty delegates will be present during the sessions. Not more than two-thirds of this number had arrived when the proceedings began. The session will continue about ten days.

The exercises were opened by a voluntary on the organ, after which Rev. Geo. Maxwell, D. D., of Cincinnati, offered a prayer.

Rev. Dr. Stearns delivered the opening sermon, in which he expressed an earnest desire for the reunion of the church, concluding as follows: "Let us come together, and as we have one doctrine, and one polity, and one order of worship, and one history, and one ecclesiastical ancestry, let us have one organization and one system of action, and one general assembly where we may all meet annually by our representatives and look each other in the face and learn to understand each other, and concert and prepare to execute large and far-reaching plans for the promotion of the same christian interest."

After the sermon the Doxology was sung and a benediction prayer offered, after which the business session was opened.

The only business transacted was the adoption of the report of the Committee of Arrangements, providing that daily sessions of the Convention be held as follows: From half past eight to half past nine each morning religious services, from half past nine to half past twelve morning business session, and from half past two to half past five afternoon business session. The Assembly, at one o'clock, took a recess until three in the afternoon.

The session was opened by prayer by Rev. Dr. Fish, of Utica. The roll was called and the Convention proceeded to the election of a Moderator. Rev. Dr. Fowler, of Utica, Rev. Dr. Taylor, of Cincinnati, Rev. Dr. Johnson of Philapelphia, Rev. Dr. Wolf, of Harrisburg, Rev Dr. Howard Crosby, of New York, Rev. Alfred Chester, of Buffalo, and Rev. Sunderland, of Washington, D. C., were nominated as candidates.

The vote resulted, Dr. Fowler, 61; Dr. Chester, 61; Dr. Crosby, 58; Dr. Wolf, 18; Dr. Sunderland, 19. The result was a tie between Dr. Fowler and Dr. Chester, The roll was called second time.

On the third ballot Dr. Fowler was elected Moderator by a vote of 122 to 83. This vote was significant of the sentiment of the Assembly, as it was known Dr. Fowler is an ardent advocate of reunion.

Dr. Fowler made an address on taking the chair, in which he declared himself in favor of reunion upon the best obtainable terms.

At the conclusion of his speech the Assembly adjourned.

—The New York State Associated Press adjourned yesterday, P. M. The Association and editorial fraternity of the State, generally, have tendered a banquet to Hon. John M. —A very great pressure has been brought to bear upon Secretary Boutwell by bankers and speculators, to have him change his policy in buying bonds and selling gold, but he gave a very decisive answer that he would not do so, and said it was useless to bring any influences to bear, because his mind was fully made up. There is something over ninety million dollars of gold in the Treasury, and as fifty millions is really all that is required, it seems probable that the Secretary will increase the amount to be sold to something over one million per week.

**Police Trouble in New Orleans.**

[By Telegraph to the Pittsburgh Gazette.]

NEW ORLEANS, May 19.—Until last night the adjoining city of Jefferson, though included in the Metropolitan police district, has refused to accept the Metropolitan force, offering armed resistance to every attempt of the Metropolitans to exercise the functions of their offices. Last night Metropolitans of the city mustered to the number of three hundred, under a captain, and were detailed to take charge of the Jefferson precinct. They made a movement about ten o'clock on the municipal buildings, which were filled with armed citizens. A small battle ensued, and twelve or fourteen Metropolitans were wounded, two of whom it is thought dangerously. The police returned and Gov. Warmouth called upon General Mower for troops. One company was furnished this morning and marched quietly to the municipal buildings, meeting no opposition, and establishing the Metropolitans in possession. The citizens of Jefferson are very much excited, and the soldiers are still on the ground. No demonstration was made against the troops. Tho pelice force was driven off, though four times as large as the body of soldiers. No citizens are known to be hurt, having been protected by the market house and police buildings.

The municipal election is progressing quietly here to-day.

**Missouri Editors on Pilot Knob.**

On Thursday Missouri editors went on an excursion to the Iron Mountain and Pilot Knob. The excursionists numbered one hundred and fifty ladies and gentlemen. An impromptu meeting was held on the summit of Pilot Knob—a solid mass of iron six hundred feet above the surrounding valleys—speeches made, and a dispatch unanimously voted and sent to the Memphis Convention, as follows:

"*Pilot Knob*, Mo., May 20.—To the President of the Commercial Convention at Memphis: The editors of Missouri, assembled on the top of Pilot Knob, greet the Memphis Convention, and assure them of their cordial support in all proper measures to cement the Union and develope the resources of the country."

The following telegram was sent by Thomas Allen to the Convention, in reply to an invitation to be present at its session:

"*Pilot Knob, May* 20—President of the Convention, Memphis: The Iron Mountain Railroad will be extended to Memphis, on the western bank of a levee on the western bank of the Mississippi river, whenever the people will subscribe as stock, at reasonable rates, one million of dollars."

The following resolution was unanimously and enthusiastically adopted, and directed to be telegraphed to the President of the Memphis Convention.

"*Resolved*, That the editors of Missouri, representing every portion of this great and illimitably productive State, assembled on the summit of Pilot Knob, in the center of our great iron deposits, request of the Memphis Convention that they will give due prominence to the project and urge upon the Government the importance to this valley of a levee along the western bank of the Mississippi river and a railroad thereon from the heights of the southeast of Missouri to the sea, whereby millions of acres of the most fertile land may be reclaimed to tillage, and a great national work, second only in importance to the Union Pacific Railroad, be consummated."

This resolution was signed by Col. N. J. Coleman, President of the Missouri Editors and Publishers Association, Governor Stanard, Hon. Thomas Allen, President of the Iron Mountain Railroad, Col. Wm. F. Sweitzer and Gen. J. R. McCormick, members of Congress.

Several other resolutions were passed, all showing deep interest in the material prosperity of Missouri and the country, and ignoring politics entirely.

After the party returned to St. Louis, they assembled at the Laclede Hotel and presented to Thomas Allen and Captain Bratasky, one of the proprietors of the Laclede, each a very costly and beautiful gold headed walking cane, for the courtesies and hospitalities extended to them by those gentlemen.

—In the Chicago Board of Trade yesterday resolutions were introduced in favor of a direct line of railway to the most eastern shore of the continent, touching the harbor of Portland, Me., running along the south shore of Lake Ontario and thence by way of Whitehall and Rutland due east to Portland, over a route recently chartered by the States of Vermont, New Hampshire and Maine. Under the rule the resolutions lay over one day. By the proposed route the direct line from London to Shanghai is thirteen thousand one hundred and nine miles, and it is estimated that the entire distance can be traversed in thirty-eight days.

—On Monday, about three thousand persons assembled at Cave Hill Cemetery, Louisville Ky., to engage in the decoration of the graves of the Confederate dead. A beautiful poem, written by Mrs. Preston, of Virginia, was chanted by the choirs of the principal churches of the city in a most touching and impressive manner. Then the immense assemblage distributed their precious offerings upon the graves, and many of them were rare. All the graves were decorated alike, and this done, with prayers for the repose of the dead, the crowd left the ground.

—The great real estate sale, by Clark, Layton & Co., of Chicago, which has been very extensively advertised for the past week, took place yesterday, and was rather a tame affair. The property is known as Washington Heights, and is located on and in the vicinity of the new South Side Park and Boulevard. The entire property was estimated at three millions. About one hundred and fifty thousand dollars worth was sold, and the prices realized were much below the anticipations of the owners.

THE Dubuque (Iowa) *Times* says: "The promising condition of the new wheat crop has caused many farmers throughout the country to dispose of their old stock, which they were holding on to with the expectation of realising higher prices. Every boat from up the river and every freight train from the west is loaded with this commodity seeking a market."

### A HYMN OF PEACE.

(Written for the National Peace Jubilee by Oliver Wendell Holmes, to the music of Keller's "American Hymn.")

Angel of Peace, thou hast wandered too long!
Spread thy white wings to the sun-shine of love!
Come while our voices are blended in song,—
Fly to our ark like the storm beaten dove!
Fly to our ark on the wings of the dove,—
Speed o'er the far-sounding billows of song,
Crowned with thine olive-leaf garland of love,—
Angel of Peace, thou has waited too long!

Brothers we meet on this altar of thine
Mingling the gifts we have gathered for thee,
Sweet with the odors of myrtle and pine,
Breeze of the prairie and breath of the sea,—
Meadow and mountain and forest and seal
Sweet is the fragrance of myrtle and pine,
Sweeter the incense we offer to thee,
Brothers once more round this altar of thine!

Angels of Bethlehem, answer the strain!
Hark! a new birth-song is filling the sky!
Loud as the storm wind that tumbles the main
Blo the full breath of the organ reply,—
Let the loud tempest of voices reply,—
Roll its long surge like the earth-shaking main!
Swell the vast song till it mounts to the sky,—
Angels of Bethlehem, echo the strain!

### A Transition State.

We seem to be in a transition state all round, politics, religion, woman's rights, men's wrongs, all seething in the caldron together; and everybody's finger is being thrust into the boiling mess, and pulled scalded out of it—some howling with the experiment, others closing their pioneer teeth upon the pain, and bearing it for the good of the cause.

This seems to me to be the situation. For one, I am quite willing to do humble duty by bringing fagots and kindling to keep the fire going, no matter who "hollers." Anything is better than letting it go out; at least so far as the woman question is one of the ingredients in the caldron. The men having the top round of the ladder at present, may sit there till we climb up and oust them, which won't be long; or rather bless their jackets, till we climb up and oblige them to make room for us to sit down beside them, which, after all, is what we really want. I for one, make no secret of liking the brethren, but I like them near—intellectually and socially. Not looking down at us from a dizzy height, careless how we stumble by the roadside, or cut our weary feet, or bruise our hearts, and stuffing their fingers in their ears, and then making believe they don't hear our cries, but helping us along generously after them, like good fellows, with a word of cheer, and a full hearty belief in our good intention and desire to do *all* our duty. Isn't that reasonable? To be sure it is, and the only reason they don't always say so is, because, with their natural impatience, they never can sit still long enough to hear us through, when we talk common sense. I believe the last question "up" was woman's right to wait upon herself to concerts, lectures, theatres, and the like, when she had no male escort. Now that is a subject that has been pretty well ploughed over in my mind for years. I have known so many bright, intelligent women obliged to stay at home, when they needed those relaxations from care and toil and bother, because custom did not permit their attendance, unless they could lasso a coat and hat to tear them company. It has seemed to me cruel in the extreme, that this law should not be changed. As I understand it, in Paris a respectable woman can do this, without discomfort or molestation, with a *female* attendant; and though it may be the death blow to my reputation to own that I never saw Paris, it is true, and I cannot therefore judge how much more safe a woman would be in waiting upon herself home in Paris, at the hour when public amusements are generally over, than in New York. This, I presume, is the hitch in the question. If so, women must wait till the majority of men are more chivalric and spiritual, and that won't be to-day, nor to-morrow. Now, a woman, by taking a big basket in her hand, and leaving hoop at home, and pinning an old shawl over her head, and tying a calico apron round her waist, may walk unmolested. I know, because I have tried it when I felt like having a "prowl" all alone, and a good "think," without any puppy saying, at every step, "A pleasant evening Miss." But this costume isn't exactly festive for the concert, or lecture room. However, with other ingredients, this topic may be tossed into the caldron above mentioned, and perhaps, after much boiling, may deposite some substantial sediment of benefit to woman. I see so many men nowadays who ought to be women, that I am positively ashamed of usurping the place of one. I am quite willing to abdicate, whenever any one can be found to take a woman's place; but the joke begins here, that the silliest man who ever lived has always known enough, when he says his prayers, to thank God that he wasn't born a woman. So you see how hopeless the case is.

FANNY FERN.

LARIATING A LOCOMOTIVE.—The Sacramento *Reporter* says: "It is currently reported that a new tribe of Indians have been discovered near Independence, on the line of the Central Pacific, who would not seem to be as well posted in regard to railroad matters as their red-skin brethern of the plains. The other day a locomotive having passed by to their bewilderment, they resolved to lay in wait or pursue and lariat the monster. Accordingly they made a very strong lariat, and perceiving the mystery approaching, stretched it across the track, either end being held firmly by twenty or thirty of the would-be captors. The engine came thundering along, the lariat was struck just below the headlight, and it is said that the Indians exhibited greater feats than was ever seen in a first class circus."

RYE FACES.—At the Convention of the Episcopal clergy of Pennsylvania, in 1866, for the division of the diocese, the Right Reverend Bishop McCoskry, of Michigan, was present. When the subject of a name for the new diocese came up for discussion, several were proposed—as Western Pennsylvania, Pittsburgh, Monongahela, etc. When the last name was mentioned the Bishop rose with great gravity and seriousness, and remarked that he was entirely opposed to the last-mentioned-name, Monongahela, and, if seriously urged, would enter his solemn protest; "For," said he, "I am of the opinion that whenever *that* name is spoken It will cause my brethren, as well as the laity, to make *rye* faces."—*Harper's Magazine.*

POPPY raising and opium manufacture is likely to become an important branch of industry in Addison county, Vt. There are to be several acres of poppies on one farm in East Middlebury.

ON Sunday last, some boys who were passing the large pond, above East Altoona, discovered a bundle of old clothes at the edge of the water. ON Friday night last, three robbers went into the house of Isaac Woodrow, in Franklin township, Chester county, and called the inmates up, stating they were relatives just arrived. Mr. W. being an invalid, Mrs. W came down and opened the door, when three men confronted her with pistols in their hands and demanded all the money about the house. Mrs. W. saw that resistance was useless, and at once produced some $600, which the outlaws took and then decamped. No traces of them have since been discovered.—*Oxford Press.*

### A Quaker Wedding.

This morning, in despite of the falling rain, the Friend's Meeting House, at the northeast corner of Eutaw and Monument streets, was filled down stairs and up by a large and fashionable congregation, who had gathered together to witness the marriage of Mr. Nathaniel Crenshaw, of Richmond, and Miss Lizzie Joliffe, of this city. The groom and bride took the front seat facing the body of the church with the mother and uncle of the bride to her left. The attendants occupied seats immediately in front facing the happy couple.

The bride was dressed in white satin with long train, trimmed handsomely. She wore a white bonnet with orange flowers, and a white opera cloak trimmed with white satin. Her dress was rich and elegant, and she was indeed a fair and beautiful bride to look upon. The groom was attired in a fashionable suit of black with white cravat and gloves. There were five bridesmaids and groomsmen.

For some time the happy couple, evidently impressed with the importance of the occasion, sat in deep silence and without motion, the bride with her eyes cast down to the ground. Amid the breathless silence that prevailed, they stood up, and Mr. Crenshaw, taking his affianced by the hand, said in a firm voice words to about the following effect: "I take thee, Elizabeth Joliffe, to be my wife, and I promise by Divine assistance to be to thee a loving and faithful husband until death do part us." To which she replied: "I take thee, Nathaniel Crenshaw, to be my husband, and I promise by Divine assistance to be a loving and faithful wife to thee until death do us part."

Mr. Francis T. King then read a declaration to the purport that the parties had declared their intention before the religious society, and had the consent of their surviving parents and their marriage was allowed at said meeting and that they had appeared in a public meeting and there made the declaration to be husband and wife. This declaration was then signed by the groom and bride, a table with pen and ink being placed before them. Mr. King then read further that the declaration had been signed by both, she taking, after the marriage custom, her husband's name, and signing her new name of Crenshaw.

Dr. James Carey Thomas then deliver ed an elegant address on the passage, "For Godliness is profitable to all things, having possession of this world and the world to come."

The address had direct reference to the ceremony which had just taken place. The beauties of religious life were forcibly portrayed. After this address a venerable lady prayed for the happiness of the young couple. This prayer was followed by another from an elderly member of the society. The bridal party then left the church, the groom and bride first, followed in succession by their attendants.—*Baltimore Commercial.*

DR. WHITTIER
CONTINUES TO TREAT ALL private diseases, Syphilis in all its forms, Gonorrhœa, Gleet, Stricture, Orchitis, and all urinary diseases, and the effects of mercury are completely eradicated; Spermatorrhœa or Seminal Weakness and Impotency, resulting from self-abuse or other causes, and which produces some of the following effects, as blotches, bodily weakness, indigestion, consumption, aversion to society, unmanliness, dread of future events, loss of memory, indolence, nocturnal emissions, and finally so prostrating the sexual system as to render marriage unsatisfactory, and therefore imprudent, are permanently cured. Persons afflicted with these or any other delicate, intricate or long standing constitutional complaint should give the Doctor a trial; he never fails.
A particular attention given to all Female complaints, Leucorrhœa or Whites, Falling, Inflammation or Ulceration of the Womb, Ovaritis, pruritis, Amenorrhœa, Menorrhagia, Dysmenorrhœa, and Sterility or Barrenness, are treated with the greatest success.
It is self-evident that a physician who confines himself exclusively to the study of a certain class of diseases and treats thousands of cases every year must acquire greater skill in that specialty than one in general practice.
The Doctor publishes a medical pamphlet of fifty pages that gives a full exposition of venereal and private diseases, that can be had free at office or by mail for two stamps, in sealed envelopes. Every sentence contains instruction to the afflicted, and enabling them to determine the precise nature of their complaints.
The establishment, comprising ten ample rooms, is central. When it is not convenient to visit the city, the Doctor's opinion can be obtained by giving a written statement of the case, and medicines can be forwarded by mail or express. In some instances, however, a personal examination is absolutely necessary, while in others daily personal attention is required, and for the accommodation of such patients there are apartments connected with the office that are provided with every requisite that is calculated to promote recovery, including medicated vapor baths. All prescriptions are prepared in the Doctor's own laboratory, under his personal supervision. Medical pamphlets at office free, or by mail for two stamps. No matter who have failed, read what he says. Hours 9 A.M. to 8 P.M. Sundays 12 M. to 2 P.M. Office, No. 9 WYLIE STREET, (near Court House,) Pittsburgh, Pa.

## PETROLEUM MARKET.

OFFICE OF PITTSBURGH GAZETTE, THURSDAY, May 20, 1869.

The oil market was considerably stronger this morning, under the influende of the advices from the east, and at noon there was some little excitement manifested; in the afternoon, however, there was a slight reaction and the advance established in the early part of the day was almost, if not entirely, lost. Notwithstanding all appears to be comparatively calm on the surface, there is a violent undercurrent, which at times shows itself on the top, and there is a sensitiveness manifested to all close observers. The market is exceedingly tigdety and unsettled, with a pretty strong pressure to force it both up and down, and many operators are completely at sea; they want to move in some direction, but are unable to decide which course is best to pursue. In fact, the trade is in a comptete muddle; there is a disposition manifested to go ahead and another to stand still, and it is this uncertainty and confusion, so to speak, which is embarrassing the market and restricting operations.

CRUDE.

The Crude market was a shade stronger, and as a general thing sellers demanded an advance, but buyers did not seem disposed to take hold at an increased price. We can report 1,000 on spot at 13⅜; 1,000 do at same figure; 1,000 seller June at 13¾; 2,000 buyer until November 1st, at 16½; at d—last evening—1,700 to be delivered on first water at 13½. Sellers option, all year, may be quoted at 13, a sale having been made at that figure yesterday. Telegrams from Oil City reported a stronger feeling there in the early part of the day, but as was the case here, there was not much done.

REFINED.

Sale of 500 each October to December at 33½; and 500 each September to December at 33¾; July to December was quoted at 33 bid, and 33¼, asked: May and June, 32; May, 32; and June 31¾@32. Buyer, all year, nominal at 35½.

## RIVER NEWS.

The river continues to recede steadily with five feet in the channel. Weather is considerably warmer, though still unsettled and cloudy, Mercury at 4 P. M., 65.

Business at the landing, although nothing to brag of, is holding out as well as could be expected, under existing circumstances, and in the absence of competition, boats are getting fair trips at a little better prices.

The following Pittsburgh boats are lying at the Ore Pile, below St. Louis, awaiting their turn for ore: Mary Davage, Ironsides, Tom Rees, and Wild Cat.

The Maggie Hays departed for St. Louis about noon yesterday with barge Monarch in tow, and about all the freight she could take on boat and barge, and quite a number of passengers. She left here drawing about four and a half feet. Pilots—Wm. Gosney and Nick Whitten.

The Kenton arrived from Portsmouth, yesterday afternoon, and will depart again to-day. Capt. Wash Kerr still retains command.

The Wauanita, Capt. C. A. Dravo, is filling up steadily for St. Louis and the Upper Mississippi and will be the first boat out. She is in excellent trim for business.

The Leonidas, Capt. Ed. Evans, with John Fisher in the office, is announced for New Orleans, as is also the Matamoras No. 2, Capt. Robt. Dalzell.

Capt. Dan Moore, is temporarily in command of the Gallatin.

Late advices from St. Louis, report that hopes are entertained of raising the Nick Wall.

—The Armadillo and R. C. Gray were to have left Cincinnati for Pittsburgh on Wednesday.

—The Messenger was at Cairo on Tuesday, and the Kate Putnam and Tom Farrow passed Evansville the same day.

—The Belle of Vernon was fourteen days in making the trip from Pittsburgh to St. Paul.

—Mr. J. H. Carter, an intelligent employe on the Vicksburg packet, will, in a few weeks, begin issuing a journal with the name of the *River Times*.

—The City of St. Paul arrived at St. Louis on Saturday, having in tow, from St. Paul, a barge containing 10,000 bushels of wheat, bound for New Orleans, and thence to Liverpool. It was shipped through by Henry Eames, who will follow this with other heavy shipments.

—The Canada collided on the way down with the Clinton bridge, by which the barge "Billy Gray," in tow of the steamer, was stove so badly as to sink upon being towed ashore. The barge was loaded principally with flour, considerable of which was damaged before being got off. The freight was transferred to the steamer.

—The snagboat R. E. DeRussey was aground in Missouri river, on Smith's bar, 20 miles below St. Joseph, on the 15th. She telegraphed to the Octavia, at St. Joseph, to return and dredge a channel for her. The DeRussey had arrived at St. Joseph yesterday, and the Octavia had gone above there.

—The Cincinnati *Gazette* says: Mr. William List, chief clerk of the R. R. Hudson, remained at Wheeling this week, to enjoy drives behind a span of fine horses which he had recently purchased.

—William Rankin, a well known colored steward on the river, and lately of the Richmond, has gone crazy on the subject of religion, and has to be confined to a room.

—The Colossal is all right, and progressing finely on her trip to Benton, notwithstanding reports to the contrary.

—A St. Louis telegram under date of Tuesday says: It is expected there will be a large attendance at the sale of the Atlantic and Mississippi Company's boats on Friday next. No conjectures can be made as to who will be the purchasers, or even bidders, but there is not much doubt that they will be bought by an association or ring, and continued in the New Orleans trade.

It has not been definitely determined whether the Great Republic will be included in the boats to run in connection with the barge company, but the matter will be decided on the arrival here of Capt. Kountz.

—The wrecks of the Clifton, Westmoreland, Mary Erwin and Cheyenne, lying at the city wharf, and the Darling and Melnotte, lying near the foot of Ludlow street, were sold at public auction yesterday, by James H. Laws & Co., auctioneers. The Clifton brought $1,600, Westmoreland $1,450, Mary Erwin $975, Cheyenne $1,850, Darling $1,950, and Melnotte $1,000. J. F. Wilson purchased the entire lot. The first five were sold on thirty days' time, and the latter at thirty or sixty days' approved paper, the purchaser to have until the 1st of June to remove the wrecks It is generally conceded that the wrecks brought a good price. Mr. Wilson is a machinist, and deals in wrecks and old machinery. —*Cin. Commercial*, 19th.

## REPUBLICAN COUNTY CONVENTION.

The Republican voters of Allegheny county are requested to meet at the usual places for holding elections in the several wards, boroughs and townships, on

**SATURDAY, MAY 29th, 1869,**

And elect delegates from each election district to each of the three following Conventions, viz:

Two delegates from each to the COUNTY CONVENTION, for the purpose of nominating candidates for Sheriff, Recorder, Register, Treasurer, Clerk of the Court of Quarter Sessions, Clerk of the Orphans' Court and Commissioner.

Two other delegates from each to the LEGISLATIVE CONVENTION, for the purpose of nominating one candidate for State Senator, for one year, to fill the unexpired term of Russell Errett, resigned, and six candidates for Assembly. And

Two other delegates from each to the JUDICIAL CONVENTION, to nominate one candidate for Judge of the District Court, and one candidate for Judge of the Court of Common Pleas, and elect eight delegates to represent the county in the Republican State Convention.

These Conventions will severally meet, in the city of Pittsburgh, on

**TUESDAY, JUNE 1, 1869,**

At 11 o'clock A. M., at the following places:

The COUNTY CONVENTION will meet at the COURT HOUSE.

The LEGISLATIVE CONVENTION will meet at CITY HALL, on Market street. And

The JUDICIAL CONVENTION will meet in MASONIC HALL, on Fifth avenue, between Wood and Smithfield streets.

The election of delegates will be held between the hours of 4 and 7 o'clock P. M., and will be held, as far as practicable, by the Republican members of the election boards in the several districts; and in those districts where the Republican election officers are a minority of the regular election boards, the said officers are authorized to appoint enough additional officers to complete the board.

The voting in the cities and boroughs shall, in all cases, be by ballot, and in the townships by marking.

The President of each Convention will appoint a Committee of three, the three Committees thus appointed to meet together, as soon as practicable after the adjournment of the Conventions, and appoint a County Committee for the ensuing year.

By order of the County Committee.

RUSSELL ERRETT, Chairman.

JOHN H. STEWART, Secretary.

BOLTING is the *Commercial's* best hold. It bolted with Andrew Johnson in '65–'66, and has ever since been trying to sneak back into the Republican confidence, to perpetrate fresh treacheries. Fortunately, it has not persuaded the Republicans of Allegheny to forget its discreditable record.

THE call for D. N. WHITE, Esq., to allow his name to be presented as one of the number to represent Allegheny county in the next Legislature, appears in today's paper. It will be seen that Mr. WHITE accepts the offer, and is willing that his name shall be used. It would be useless for us to add anything in behalf of this gentleman, as he is known to be among the very best men in our county, and we assure our friends that no better selection could be made.

WHAT is the precise standard of *Commercial* "indifference?" It was very low at Greensburg a few years ago, and since then has been steadily sinking. We fear it is now too far beneath respectable criticism for any quotation. That must be an utterly disreputable ticket which shall come below the *Commercial's* political grade. That journal has been for many years an offense to the nostrils of all respectable politicians of either the Republican, Democratic or Johnson parties, but until deodorized it can do harm to none.

ONE CAN form a revolting idea of the lowest depths of political turpitude, when they see such traitors as the JOHNSON renegates of '66, in Western Pennsylvania, declining the still lower disgrace of a public affiliation with the Pittsburgh *Commercial*. There are grades even in political treachery, and the offer of that print to prostitute its columns for a little dirty pelf, was more than even the COWANS could stomach. Its rejection proved that they had a still lingering gleam of self-respect. And yet this *Commercial* now prates of the honesty of candidates.

IT is three years since the Pittsburgh *Commercial* offered to sell its pretended Republican principles, a dear bargain for the cheapest of prices, to the corporal's guard of skedaddlers and renegades who then managed, as they in fact composed, the Johnson party in Western Pennsylvania. What it wanted in return was the "official patronage" of that meanest of all administrations. Even A. J.'s fugle-men could not see any profit in the proposition, and turned up their noses at it in disgust. Since then, the *Commercial's* political value has, if it were possible, deteriorated still lower.

THE Pittsburgh *Commercial* of the 19th, quotes approvingly the declaration of a Philadelphia print, that if the Conventions nominate "bad or indifferent candidates, they must provide for their election without its aid." Our Conventions sit on a June Tuesday. It must be Wednesday before our Republicans are to know if the *Commercial* regards their ticket as "indifferent"—and so unworthy of its support. This would be bad, were it not for the general understanding that the *Commercial* will still try to do us a good turn, in promoting the election of the ticket by its own immediate bolt.

IT IS scarcely necessary to mention, in this community, that the *Commercial*, which has for years amused our Republican friends with its pretensions to a Republican position, is now, and has for some time past been, edited by a gentleman of the most ultra Democratic politics. The same gentleman edits the Sunday *Leader*. Whether in the *Commercial's* "Republicanism" (!) or in the *Leader's* "independence" (!!) the venomous rattle of his Democratic instincts is never wholly concealed. He has a right to his political opinions, but the Republicans of Allegheny are entitled to a clear understanding of his true motives under whatever disguise.

THE *Commercial* "ventures to say" that the opposition bases its hope of success, at the October polls, "upon the prospect that the Republican Conventions will endorse those officials who have brought the party into disrepute." About as near the mark as you would expect, from a *quasi* Republican journal edited by the most venomous of Democratic partizans. No matter what nominations our Conventions shall make, the merest tyro in politics clearly foresees that the opposition will denounce the ticket as corrupt. Whether our men shall be good or bad, they will be assailed as unsound in personal and political morality—and the *Commercial* will be quoted as authority therefor. It is out of the question to expect that we can nominate any candidate whatever, who shall escape the sweeping imputations of the opposition press, based upon the stupid or malicious assertions of that sham-Republican newspaper. Its policy has been to set the prairie in an undiscriminating blaze, to destroy alike the innocent and the guilty. That is what the opposition rely upon. Let us rejoice that the *Commercial* has shown its true colors at last—bolting the nominations in advance.

### THE LAKE SUPERIOR IRON TRADE.

As an evidence of the vast proportions of this comparatively new source of production, we find the following statement of the export of pig iron and iron ore from the single port of Escanaba, from the opening of navigation, which occurred about the 10th of April, to the 11th of May, instant—a period of one month:

It will be observed that Erie, Pa., receives one-fourth of the entire export, and Cleveland, Ohio, nearly one-half. Most of the iron ore for Erie is doubtless intended for the anthracite furnaces in the interior of the State, *via* Philadelphia & Erie Railroad. The revolution which these rich ores of Lake Superior is quietly but rapidly developing, is remarkable; none the less remarkable is the fact that our vast coal-fields can attract from afar the rich mineral of Michigan. In the *union* of Pennsylvania coal with Lake Superior iron ore, wherever accomplished, there is wealth. The "coming man" will see companies organized with the view of effecting this union, by rail and water, both in Michigan and in Pennsylvania. These thirty or forty vessels should not have been allowed to return to the Bay de Noquet in ballast, but should have carried a return cargo of Pennsylvania coal, to find a ready and remunerative market on the iron shores of the Peninsula. We are glad to learn that an arrangement of that sort is already on foot.

### DRUMMED OUT AT LAST.

For years past the Republicans of Allegheny county have borne as patiently as they might, with the trickeries, inconsistencies, stupidities, and not seldom the mischievous treacheries, more or less successfully concealed, of a pretended Republican journal of this city. Its hypocrisy was always patent, and its venality has been a daily notoriety. Adhering but in name to our party organization, it has omitted no opportunity for committing some palpable blunder, unless it rather preferred to improve the occasion with some insidious stab at Republican principles, or at their well earned ascendency in this county. It never willingly did any good service to the party; it never suggested an argument or led public sentiment with an useful idea; it has yielded no aid whatever in any of our battles, and was never counted among the number of those who faithfully and effectively up held here the banner of sound political opinion. Altogether a negative quantity, when work was to be done, or help was required, in the way of promoting the triumph of those opinions, it has with equal uniformity, and with far greater success, stood always ready for some corrupt prostitution of its nominal position, selling out its types and its ostensible principles with equal alacrity to the highest bidder for its "most sweet voice" Because it was too stuped to do us any good, was merely the generally accepted proof that its management had neither brains nor sagacity; but, because it was as notoriously and corruptly venal, was admitted, by the same general consent, to be an ample evidence of its entire destitution of any honest principle whatever. We could forgive its blunders, because no one deserves censure for being deficient in wit; but no honest and intelligent citizen of this county has ever been able to speak of its shamelessly mercenary conduct, without a feeling of pity—not wholly free from contempt. It is altogether needless, in this community, to add that we refer to the Pittsburgh *Commercial*. Every one recognizes the original of our rudely sketched picture. We have, very fortunately, in this old Republican stronghold, but one newspaper to fill that bill—and the *Commercial* has the place by an unanimous vote.

The Republicans of Allegheny county will be happy to learn that they are, at last, well rid of a print which, always secretly their enemy, has ever been openly their most annoying embarrassment. They have patiently forborne to disown and denounce it, because of the general conviction that, wherever the character of the *Commercial* was known, it was wholly without influence either for evil or for good. But it has always been felt to be in some sort an impediment to the Republicanism to which it usually clung, like a barnacle to the hull of some noble ship. Our Republicans have wished themselves freed from it for years past, and have never failed to disown it on all suitable occasions. But still, so long as Republicans rule the Nation, State, county and city, it has still appeared to cling to the party with the tenacity of death. Always hungry for some crumbs of official patronage, it has not the confidence, nor the patronage of Republicans in one solitary Federal, State, county or municipal office. Always boring at Washington or Harrisburg, or at home, for a share, no matter how contemptible, of the public patronage, it has been always shown to the door, and shut out. We have been afraid it would never take a hint, and would have to be kicked out by an exhausted patience. Let us be thankful that its seat of honor seems to be at last touched, and that within the past few weeks, it has effectively mustered itself out of the party. Its discharge-papers have the proper N. B. warning our political surgeons against its re-enlistment on any pretext, by reason of its hopelessly incurable worthlessness. Should it offer itself for readmission to our ranks, under its present management, it should be drummed at once out of camp, to the tune of that old march which precisely suits its case.

### REPUBLICANS OF ALLEGHENY:

Your primary meetings are to be held on the last day of next week, and your Conventions sit a few days later. Since it is possible that the Weekly GAZETTE of to-day may be the last which some of you may see, before your primary meetings are held, we think it proper to offer a few suggestions for your seasonable consideration.

1st. You are requested by your Committees to choose three sets of delegates, to as many separate Conventions. In two of these Conventions, the Judicial and the Legislative, there will be no chance whatever for dickering or log-rolling. In the third, the old facilities in that regard are to be very much restricted. You are to select, in all, six delegates from each precinct. We urge upon you the duty of a full attendance at the meetings, a frank and plain discussion about candidates, and the choice of your best men to send to the Tuesday Conventions.

2nd. Instruct your delegates to vote for the best men, in point, first, of integrity, second, of capacity, and third, of faithful political services. There are a host of candidates in the field, and they do not all alike possess these qualifications. If you are not satisfied with the names thus far offered to your choice, look elsewhere. The county is large and populous, and Republicanism has a very large proportion of honest and capable citizens to its knaves or its fools. Neither you nor your delegates are limited to the advertised candidates; wherever you can find a man who will honor the office, instead of the office only honoring him, he is the citizen whom you, and all of us, want on the ticket.

3rd. Discountenance any combinations between the friends of candidates for the different offices. Let every tub stand on its own bottom. Each name should be chosen as if it were the only name on our ticket for October, and that ticket to stand or fall upon its merits for integrity and ability. Don't rely upon the honest candidates carrying through the others who are not honest. One discreditable selection is enough to damage the largest ticket you can have. When you hear any "arrangement" proposed at your primary meetings, you may be sure that there is some plan on foot which will not be for the public good, and you should frown upon it accordingly.

4th. Every citizen may lawfully and properly take any open and legitimate means to secure a nomination. But when, other things being equal, you see a candidate or his friends feverishly anxious to secure the delegates by unfair means, or by any sort of snap-judgment, your prudent course is to let that man and his friends alone, and select some one else.

4th. Pay especial attention to your Judicial and Legislative delegates, and be sure to have men who will faithfully represent your wishes. It is confessedly of the utmost importance that the Judges, whom we nominate and elect, should be men of high legal attainments, good business capacity, correct habits, and of unimpeachable moral character. Our members of the Legislature in either branch should be men who have settled principles and honorable reputations. They should be not only spotless in character, but above any just suspicion. Condemn no man because he may have been vilified by his personal or political enemies, and, on the other hand, be quite sure that no stain justly attaches to his private or public record. Your political opponents accuse you for having sometimes elected dishonest legislators. They will assail your nominees, be these whom they may, with the same imputation. It behooves you to take good care that every name on your next ticket then be that of a citizen whose known character defies all such assaults. If *you* have confidence in A or B, but are aware that some of your neighbor have not, remember that they have as good a right to their opinions as you to yours—and lay aside your preferences, with their prejudices, and you can easily agree upon men wholly unobjectionable to any portion of the party. Give no color to the slanders of the Democracy; with their new Judas recruit, the Pittsburgh *Commercial*, but be sure that you take up good and true men, and then uphold them against the world. Your nominees will be assailed and blackened, but you will know them and defend them. Integrity and capacity are the only standards you need set up. Follow these, and you will not need to go to the Pittsburgh *Commercial* for its mercenary approval. That journal promises to bolt your ticket, unless you meet its views. Let your delegates rebuke its dictatorial arrogance, by their utter contempt for its threats. The Republican standards of merit are good enough, without borrowing others from that impudent and venal print, and the Republicans of Allegheny prefer its open hostility to its damaging friendship.

### COUNTY COMMISSIONER—JOSEPH DILWORTH.

EDITORS GAZETTE: I heard on the streets yesterday, that Joseph Dilworth, Esq., of Oakland, would, if nominated by the Republican Convention, accept the candidacy for County Commissioner, and devote the salary of the office, if elected, to the Poor Fund of the county.

It is important to know whether this rumor is true. If a man of Mr. Dilworth's business ability is willing to devote his time to the service of the county, it should be certainly and speedily known.

*

We know nothing of the truth of this rumor, but we know it is in circulation. Mr. DILWORTH, himself, can set the matter at rest, by stating what his purposes are, in the premises.—[EDS. GAZETTE.

### Washington Items.

The British Minister has returned from his visit to the Pennsylvania coal-fields, and to-day had an interview with the Secretary of State. Mr. Thornton expressed his disbelief in the triple alliance story.

The President has not yet determined the route he will take this summer, nor the point at which he will spend most of the time which he has decided to devote to the rest and recreation which he so much needs. He will attend the annual Cadet Examination at West Point in June, and may then go to Boston for a short stay. He hopes to spend a short time in the West, and, if he finds his public duties will permit, he may yet decide on a trip over the Pacific Railroad.

The rapid increase in the premium on gold has stimulated a certain class of financial men not only to write to the Secretary of the Treasury, but to come on here and belabor him in person to reconsider his decision to carry out the sinking fund of 1862. Several sought an interview for this purpose, but failed. Mr. Boutwell is determined to adhere to his policy, and to sell gold and buy bonds just so long as the condition of the Treasury justifies such a course, no matter whether the premium of gold goes up or down.

Commissioner Van Aernam has direc- that in future all applications for increase of pensions under the act of July 27th, 1868, must be made out according to the following form, which must be accompanied with the pension certificate:

*To the Commissioner of Pensions:*

SIR: Believing that I am entitled to arrears of pension from the date of death or discharge, as the case may be, for —— company, —— regiment, case No. ——, I hereby return my present pension certificate with the request that a new certificate may be issued to me and sent to [Here give name and address.]

The attention of attorneys and claimants is also called to the peremptory language of section 7 of the act in question.

THE story of more fighting with the Indians on the frontier is discouraging. The dispatch does not show that the savages were the aggressors, although we have had rumors that the Cheyennes were again about to take the war-path. We have great fears that the men of the sword will be ahead of the Quakers in settling the terms of our intercourse for the summer with these Indians.

### A CALL.

May 11, 1869.

D. N. WHITE, ESQ.—*Dear Sir:* The undersigned citizens of Allegheny county hereby ask you to permit your name to be submitted to the Nominating Convention for a place on the next Legislative ticket.

Believing the time has come when the Republican party should present the names of men both honest and capable, we hope you will give us a favorable answer. Yours, &c.,

SEWICKLEY, May 19th, 1869.

*To Messrs. John Dean, C. C. Boyle, John Thompson, J. P. Kramer and others.*

GENTLEMEN: Your flattering request to allow my name to be presented to the Republican nominating Convention, as a candidate for the Legislature, was received last evening. While I have no ambition to serve in such a position, still, if you think the use of my name will subserve any public interest, you are welcome to use it in the behalf mentioned, and if your kindly sentiments should be entertained by the Convention, and I should be nominated and elected, I will try and not disappoint your expectations. Very respectfully yours, D. N. WHITE.

### The Alabama Question in England.

The London correspondent of the New York *Tribune* says:

The irritation caused by Mr. Sumner's speech goes on increasing instead of diminishing, as I hoped it might after a little reflection. I have already described it as extending through all classes, turning old friendship into ill-will, and uniting those who were for us and those who were against us in one common purpose of resistance to the demands supposed to be made by Mr. Sumner. With a good deal of reluctance, and with some qualifications, I said we had few friends left, if approval or even toleration of Mr. Sumner's speech was to be the condition of friendship. With a good deal more reluctance, but without any qualification. I say to-day that so far as I know we have not, in that sense, a single friend in England. Of course I do not mean that men long conspicuous for their sympathy with us have on a sudden become enemies, or that they recant anything they ever said on our side. But they dissent wholly from Mr. Sumner's statement of the American claims and grievances. They find fault with the tone of the speech, and the extent of his demands. In more than one particular they are misled, or some of them are, by the misrepresentations of the London papers, all of which make Mr. Sumner say some things which he clearly does not say. Comment on the speech continues daily, in the press and everywhere else, and while there is a difference in the degree of resentment expressed in different quarters the agreement of opinion is practically unanimous. England will fight rather than yield to the claims made or indicated in this speech. She will fight rather than even negotiate on any such basis. If Mr. Motley's instructions cover anything like the ground taken by Mr. Sumner, he will be met by a point blank refusal to consider his proposals. At this moment I doubt whether any proposals whatever would be listened to. If popular feeling counts for anything in the Foreign office, they would be simply scouted. Of course, I don't mean that Mr. Motley is likely to be received with incivility. The most furious would greet him with politeness enough, but all parties will resist with equal resolution an attempt to enter upon any negotiation which does not disavow, in fact if not in terms, Mr. Sumner's authority to speak for the American Government.

A COLORADO paper says: One of the results, useful to mankind, flowing from the voyages of the expedition to the Japan seas, was the reduction to knowledge of a great ocean stream, having its course along the Asiatic coast and entering through Behring Straits into the Arctic sea, which surrounds America on the north.

Silas Bent has illustrated, in a memorial to the Geographical Society of New York, the continuous flow of this warm current over the locality of the North Pole, in a circuit outside of the ice fields. A vessel properly equipped at Sitka, in Alaska, starting there and sailing with this current, may pass in a North Pole itself and over on to the northern shore of Europe or Siberia and reach New York.

The way to surmount an insuperable physical difficulty, is to go around it. The results of one hundred and fifty voyages to solve the mystery of the Polar Seas is a shining illustration of the burlesque of attempting to travel through the ice and against the current—sailing two miles ahead whilst the current is three miles in the rear. The way *never* to reach the North Pole is then to keep up this burlesque for another century.

In the meantime let Silas Bent be put on the trail which he has blazed out, and we will furnish him with tough and reliable companions from Colorado.

THE Benevolent fraternity of churches in Boston is doing an extensive and useful work. Five chapels and eight missionaries are maintained at an annual cost of $15,000. In addition to preaching, Sunday schools and day and evening schools are maintained in the chapels. In some of these schools French, algebra, mechanical drawing, book-keeping, botany and physiology are taught, so that those who are compelled to work during the day can have excellent teaching in the higher branches of education by connecting themselves with these evening schools, free of expense. The Fraternity embraces all the Unitarian churches in that city, and is managed by delegates from all these churches, including the pastors.

### LETTER FROM ST. LOUIS.

**Direct Shipment of Grain to Europe—The Cattle Trade—The Coming Prize Fight—Trial of Capt. Donaldson, of the Great Republic.**

[Correspondence of the Pittsburgh Gazette.]

ST. LOUIS, May 18th, 1869.

The movement which centres in this city for the direct shipment of grain to the sea board and Europe by way of the Mississippi river and Gulf, is already exhibiting favorable results. Its feasibility was not hard to show on paper, or to demonstrate by arrays of figures the comparative advantages of this route over the best artificial channels. But capital is so coy towards untried enterprises, and the lake and the canal route has so long controlled the grain trade of the Northwest, that it required unusual daring for St. Louis to make the attempt. It was hardly to be expected it would be a complete success from the outset, but the results have been equal to the most sanguine anticipations.

Private dispatches announce the arrival in Liverpool of the first direct shipment by the bark John Geddes, twenty-six days from New Orleans. This is wheat from Dubuque, and the entire freight charges to Liverpool are less than forty cents per bushel—a saving of twenty cents in what they would have been from Chicago to Liverpool via the Lakes and New York, to say nothing of the gain in time.

The advantages of this route are indeed so apparent that the wonder is it has not been adopted earlier. Experience, however, as St. Louis ought to know by this time, has shown that natural advantages do not always win the day, when combatted by pluck and enterprise. The champion belt has not only to be won by hard knocks, but to be maintained by harder ones. A check isn't a check-mate by any means.

Our people are so elated by their success in drawing off from Chicago what promises to be a big proportion of her $73,000,000 worth of grain trade, that they now propose to attack her on the other flank, and by the establishment of a Union Stock Yard divert the beef trade from that market. There was a meeting at the Southern Hotel, Saturday evening, the 14th inst., at which this subject was discussed, but no conclusion arrived at. It appears, per statements of one of the speakers, that the value of cattle passed through Chicago stock yards last year was not less than $65,000,000, a large part of which legitimately belongs to St. Louis, the cattle being raised in this State, and the business actually drawn away from here by the want of proper facilities for handling.

Speaking of the champion belt reminds me that Mike McCoole is training himself for his coming fight with Allen. Knowing ones say Allen will win, as the champion has got fat and lazy, and too confident in his own power to train as he ought to. Well, Rome fell at last, and why shouldn't he?

Capt. Donaldson, of the steamer Great Republic, was yesterday arraigned for the second time for the murder of a colored man, a hand on his boat, something like a year ago. Heretofore the trial has been prevented by the absence of important witnesses. Donaldson pleads not guilty. He will be defended by able counsel, and the trial will be of unusual interest, increased, perhaps, by the circumstance that the time honored privilege of walloping and killing a nigger is at stake. That a steamboat man should be even arraigned for such an offence committed on the Mississippi river is an event in history.

Weather cold, with much rain. Fires, which we were very comfortable without during part of April, are indispensable now. HITTY MAGUIRE.

### MECHANICAL MEDICAL APPLIANCES.

There are certain phases of disease, and certain diseased conditions of the human system, which proceed from displacement and mal-position of some of the various organs of the human body. These are not remediable by the usual and ordinary methods used for the cure of other ailments; but require some mechanical stay or support to maintain the parts in position until they are healed. Prominent among these may be classed a displacement called hernia, or rupture, which is a protrusion of part of the bowel, and which must be returned and kept to its place by some outward support which should be properly adjusted in order to secure immunity from inconvenience and danger. The prevalence of this condition is now very common and should be attended to immediately on its appearance, not only because of the present inconvenience which its produces, but also in consequence of the usual danger of strangulation which is rarely remedied but by a surgical operation.

Varicose veins in the legs and varicocele are other forms of structural changes which need immediate and scientific outward support, in order to afford relief or effect a cure. Each of these conditions are now as much within the pale of successful treatment as any of the other diseases to which mankind are liable.

Stooped shoulders may be cured at once by the use of my Shoulder Braces, which not only maintain the body in an erect position, but at the same time enlarge its capacity, and allow free and full expansion to the lungs, always a necessary condition to a healthy and perfect use of the pulmonary organs.

There are hundreds of females who would find great benefit from wearing these shoulder braces as they are so constructed as to take all the dragging weight from the back or spine and suspend the clothing from the shoulders. Those who use my shoulder braces need not wear suspenders, as they answer the double purpose of shoulder brace and suspenders; in fact they are the best suspenders ever invented. Sold and applied at

### A HOUSEHOLD ELIXIR ADAPTED TO ALL CLIMATES.

It would be a happy thing for the world if all the excitants at present used in the practice of medicine could be swept out of existence, and HOSTETTER'S STOMACH BITTERS substituted in their place. There is a probability, too, that this desirable substitution may one day be accomplished. Certain it is, that the GREAT VEGETABLE TONIC is gradually displacing them, and that the confidence of the people in its sanitary and saving properties increases with every passing year. "Figures that cannot lie" show this to be the fact. No medicinal preparation enjoys the like popularity among all classes and conditions in every section of the country. As an appetizer, a general invigorant, a remedy for indigestion, a cure for intermittent and remittent fevers, a general cathartic, a specific for flatulency and sour stomach, a gentle diuretic, a nervine, a blood depurent, a specific for sick headache, a mild anodyne, and, above all, as a PROTECTION AGAINST EPIDEMICS, it is unquestionably the STANDARD MEDICINE of the whole United States. In the towns and cities it is literally a HOUSEHOLD STAPLE. Mothers believe in it. They find it a "present help in time of trouble"—a safe and pleasant remedy for the various ailments to which their sex is exclusively subject. Men believe in it, because it refreshes and invigorates the body and mind, and tones both without exciting either.

## FINANCE AND TRADE.

OFFICE OF PITTSBURGH GAZETTE, THURSDAY, May 20, 1869.

The fluctuations in the gold market were very violent and 144¾ was once reached, declining again to 144⅛. The tendency has so far been constantly upward, without any reaction, and it seems probable that the operators will carry it much higher. It is even generally believed that a rate approximating 160 will be reached, and the present state of the country's trade is favorable to such a scheme. The true cause of the rise and its main support is the immense adverse balance of trade against us and the large amount of goods now in the bonded warehouses, that have to be paid for yet in either bonds, so long as Europe is willing to take them, or in coin, if no produce can be shipped.

Government bonds were dull early this morning and opened at a slight decline, but later in the day closed strong and advanced to nearly the highest figure of the day.

Stocks are strong and higher and a regular bull campaign has set in again, since money is easy and gold has advanced.

NEW YORK, May 20, 1869.

Money easy at 6@7 per cent. on call loans, with rather more business at 6 per cent. than for several days. The Toledo and Wabash road to-day notified Stock Exchange that in thirty days from date its capital stock will be increased to four million dollars. The Company intend to appropriate $600,000 for the purchase of the Decatur and Illinois Railroad, giving them an air line to St. Louis, $500,000 to erect new elevators at Toledo, and $1,900,000 to extend the road from Quincy via Hannibal and Waberly to Kansas City. Sterling firmer: 9⅜@9⅝ for 60 days, and 10⅛ for sight; rather more bond bills offering and taken by leading bankers to cover their own bills. Gold excited and firmer. The recent rapid advance is sustained by expectation that specie shipments will soon begin, prime bankers exchange having reached a point where in will be small profit in exporting gold The unfavorable advices from London also excited apprehension. Private dispatches say money there is active, though the Bank of England has not advanced its rates, yet outside rates are 5@6½ per cent. The price opened at 43½, advanced to 44⅜, and fell to 43½@43⅝. At the close carrying rates were 4@9 per cent., and 1-32 to flat. The market was wildly excited in the afternoon under a rumored failure of a large firm in the Brazilian trade, which was afterwards denied. The final decline was occasioned by rumors from Washington that the Secretary of the Treasury had decided to stop buying bonds and would cancel the 3 per cent. certificates instead. The clearances reflecting yesterday's business were one hundred and sixty-seven millions. Heavy sales of long gold was made this afternoon by prominent bulls, estimated at six to ten millions. At the Treasury sale bids were filed for $2,100,000 and awards made to Henry Clews & Co., $50,000 at 143 77-100; $250,000 at 143 79-100; $250,000 at 143 81-100, and $250,000 at 143 85-100; W. F. Livermore & Co., $50,000 at 143 80-100 and $50,000 at 143 81-100, and Lewis Daniels & Co., $100,000 at 143 91-100.

Governments have been firm all day, and prices again advanced. In the afternoon there were large Frankfort orders for bonds on the street this morning, and probably $20,000,000 were taken for shipment, an evidence that Germany is not apprehensive of financial and political trouble here. Coupons of '81,123@123¼; do. '62, 123⅜@123⅝; do. '64, 123⅜@123⅝; do. '65, 119⅜@119⅝; do. new, 120¼@120⅜; do. '67, 120¼@120¼; do. '68, 120⅝@120¾; 10-40's, 109¾@110; Pacifics, 107⅝@107⅞. State bonds are quiet. Missouris, 88¾; old Tennessees, 68@68¾; new do., 65¼@65½; old North Carolinas, 59½@59¾; new do., 54⅜@54¾; old Virginias, 57@58; new do., 62¼@63; Louisiana Levees Sixes 69.

The stock market was strong during the forenoon with the Vanderbilt stock. Ohio and Mississippi, Pittsburgh, Rock Island, Wabash, Reading and North Western were features. Heavy purchases of New York Central and Hudson were made by well informed parties. Fort Wayne, from expectation of both stock and cash dividends, was better, said to be 71½, and dealings large in the afternoon. New York Central was feverish, and fell from 188¼ to 186¼, with other shares. Sympathizing with the latter it became known that the Governor had signed Central 80 per cent. scrip and consolidation bills. The fact and the Governor's reasons therefor are published, and New York Central rose to 189¼, while the market advanced and closed strong.

## PITTSBURGH MARKETS.

OFFICE OF PITTSBURGH GAZETTE, THURSDAY, May 29, 1869.

The general markets are rather dull and devoid of any new or important features worthy of notice. The demand for nearly all of the leading articles is confined mainly to supplying immediate wants, while in regard to values there are no important changes. The unsettled and, we might say, panicky feeling in regard to financial matters, is having considerable to do with the dullness which has prevailed for some days, as there seems to be a disposition manifested in commercial circles to do just as little as possible, until money matters become more settled.

## NEW PUBLICATIONS.

EVENING BY EVENING; or, Readings at Eventide for the Family or Closet. By Rev. C. H. Spurgeon. Published by Sheldon & Company, New York. For sale by R. S. Davis & Co., 193 Liberty street, Pittsburgh.

We have not seen "Morning by Morning," the companion volume of this work, but presume it is arranged on the same plan as "Evening by Evening," though the lessons are different. This work is arranged for suitable reading every day in the year, each page containing the comment on one text, and only designed that one page shall be read each evening. It must have required much precision, as as well as great discrimination, to adjust the lesson so well to the bounds of a page, and yet there does not appear to be any strain, or break in thought, to carry out the plan. Readers of Spurgeon's "Gems," "Gleanings Among the Sheaves," may easily imagine the excellencies of these Evening lessons. The broad and catholic views of the author are world-wide, and his popularity among all orthodox denominations will attract thousands of persons to use this work. The remarkable power of illustration, in the use of symbols and figures, and the wealth of language employed in his sermons and addresses, are the secrets of his popularity. There is, too, an earnestness and simplicity about Mr. Spurgeon's writings that commend them to the evangelical, and for the sweet spirit which permeates them.

AGNES WENTWORTH. By the author of "Herman," and "Sir Pavon and St. Pavon." Published by J. B. Lippincott & Co. For sale by Henry Miner, Pittsburgh.

This is a very interesting and well told story. There is a naturalness in the grouping of the characters, and a clearness of definition which makes the story pleasant and fascinating. Phases of life are also presented in terse and vigorous words. The closing chapters are exciting, and will arouse the sympathetic feelings of the reader. It is high toned and much above the average of most of the novels issuing from the press. The heroine of the story is delineated with signal ability, ending with her happy marriage, which gives a happy *finale* to the story.

NELL'S MISSION. Published by Robert Carter & Brothers, New York. For sale by S. A. Clarke & Co., 119 Wood street, Pittsburgh.

This is one of the "Fireside Library" series issued by this house, mainly for Sunday School Libraries. It is a capital little work, especially for young folks, and contains lessons of value for youthful minds.

CHILDREN OF THE TEMPLE. By Rev. H. Clay Trumbull, Missionary Secretary of the American Sunday School Union for New England. For sale by F. G. Reineman, Third Avenue, a few doors down Wood street.

This excellent publication is a handbook for the Sunday School Concert, and guide for the Children's Preacher. It contains a history of children's worship; hints on bible reading and singing, prayer and preaching; forms for opening and closing service; concert exercises; sermons, plans, etc. This brief synopsis of the work will give some idea of its character, and its suitability for children. In these days of progressive notions in Sunday School matters, this volume will doubtless find ready sale, and be popular among Sunday School workers. We are glad to note that so much attention is paid to the young in supplying them with a healthy and instructive literature.

WOMAN IN PRISON. By Caroline H. Woods. Published by Hurd & Houghton, New York. For sale by R. S. Davis & Co., 193 Liberty Street, Pittsburgh.

Rarely do we find a woman willing to assume the position of matron to a Penitentiary for such noble reasons as this lady. In doing so, she made a sacrifice of great moment in order to do good, and accomplish certain reforms in our prison system. Her narrative is straightforward and written in fine spirit. Throughout thrilling incidents occur, and instances are given in detail of the mode of treatment of the inmates. The serious evils spoken of call loudly for reform, and, indeed, the entire revision of our prison system. There is still an adherence in some of the prisons to the barbaric customs of by gone ages which ought to be banished. This book will do good, and help to stop the crying abuses of prison discipline, by arousing public attention to the evil.

ROSY DAWN STORIES. Six Volumes. Published by Henry A. Young & Co., No. 24 Cornhill street, Boston. For sale by J. L. Read & Son, No. 102 Fourth avenue, Pittsburgh.

In former years little story-books for Sunday Scholars Libraries, and the family circle, were robed in the plainest Quaker-like binding, giving them an unattractive appearance, however beautiful were the stories. Now-a-days books for young people and little children are gaudily bound, and elegantly illustrated. The six volumes of the *Rosy Dawn Stories* are handsomely bound in green cloth, with gold letters of unique style, uniform size, and in a box, the set for four dollars and fifty cents. The first volume of the series relates to a beautiful little girl named "Aola," belonging to the Indians of the Penobscot tribe in Maine. The second, "The Violet-Girls; or Susy and Louise." Some of the incidents of this sweet little story, the author is indebted to Henry Mayhew, author of the Poor of London. Next volume, third, "The Water Cress Girl, or Little Aggy," is a story much of the same type. "The Pic nic Party, or Alfred Morton," volume fourth, is a capital thing for boys, and girls will enjoy its perusal. Volume fifth, "The Twin Brothers; or, Hugh and Malcolm." Boys will enjoy this well told story. "The Two Birth-Days; or, Rosa and her Father." Few can read this little tale without feeling tender in the region of the heart.

THE SEXES HERE AND HEREAFTER. By William H. Holcombe, M. D., author of "Our Children in Heaven," &c. Published by J. B. Lippincott & Co., Philadelphia. For sale by R. S. Davis & Co., 193 Liberty street, Pittsburgh.

It is seldom that the *peculiar* views of Swedenborg are so gracefully presented as in this volume by Dr. Hammond. The doctrines here set forth are at least fascinating, if not convincing, and will bear reading to know the other side of a question, on which the orthodox think differently. The author assumes in his preface that Swedenborg has sifted the question of sexes to the bottom, and has made known the spiritual cause of polygamy, concubinage, and prostitution; and has unfolded the philosophy and spiritual view of marriage, and the true relation of the sexes to each other. The questions of sex, love and marriage, are discussed very thoroughly. In the chapter upon "Sex, Love and Marriage Eternal," Swedenborg says "that partners who seem exteriorly to be the closest friends, are sometimes interiorly the most inveterate enemies." Marriages in this world interpose no difficulties in the way of spiritual marriage in the next. In reply to the question, what will the unmarried do? the answer is given, "they are drawn to their spiritual affinities, as all are." Those who have been married several times are assured that there will be some female spirits more interiorly drawn than any other spirit in the universe, his exact counterpart, his spiritual complement. The book will cause a sensation and be extensively read. It is elegantly printed and neatly bound.

ON THE WING. A Book for Sportsmen. By John Bumstead. With illustrations. Published by Fields, Osgood & Co., Boston. For sale by R. S. Davis & Co., 193 Liberty street, Pittsburgh.

These enterprising publishers are treating us to some really useful, as well as entertaining books. Theories vanish in the matter of fact character of this work. Indeed, this is true, in several of their recent publications. It is noteworthy that these practical books are *par excellence* both as it regards paper, printing, wood-cuts and binding. This will do for a companion volume to Murray's "Adventures in the Wilderness." Here we have the views of an experienced sportsman on everything relating to that life, from the elementary principles of "How to Select a Gun, "How to Load," etc. It is quite an encyclopedia in all that relates to the hunter's art. Useful knowledge may be learned by old sportsmen as well as the novice.

THE ARK OF ELM ISLAND. By Rev. Elijah Kellogg, author of "Spartacus to the Gladitors," etc. Published by Lee and Shepard, Boston. For sale by S. A. Clark & Co., 119 Wood street, Pittsburgh.

Those who are familiar with the two preceding volumes of the "Elm Island Stories," can form some idea of this volume of the series. It maintains the reputation of Mr. Kellogg as being an excellent writer for young people. In this story we have the incidents of sea-faring life graphically described in the "Ark," interspersed with useful lessons for boys. The history of places are presented in charming style, and in a form at once attractive as well as instructive. Books of this kind are a species of education of the right sort for young people.

THE CHANGED BRIDES. By Mrs. Emma D. E. N. Southworth. Published by T. B. Peterson & Brothers, Philadelphia. For sale by W. A. Gildenfenny, Pittsburgh.

The author of this novel has written so many works of fiction, that her name has become very familiar to the public. It is thought that this novel is fully equal to "Fair Play," and "How He Won Her." It shows the skill of this lady in depicting character, and in giving descriptions of natural scenery. Her numerous admirers will be glad to see it in book form.

KATHLEEN, by the author of "Raymond's Heroism," is No. 322 of Harper's Library of Select Novels. The following criticisms by an English journal present the main points of interest in this novel. It says it displays merit of a high class and of various kinds. In the first place, it is told in simple, solid and dainty English. In the second place, it is written by one who has an eye to scenery. Then, again, we have real conversation in the book. In the next place, the story—and it is a very good story—is well told. For sale by Miner.

OVER YONDER has just been printed in pamphlet form by J. B. Lippincott & Co., Philadelphia. It is a translation from the German of E. Marlitt, author of "The Old Mam'selle's Secret." It appeared first in *Lippincott's Magazine*, and was received with much favor by the lovers fiction. Aside from its merits, we note with pleasure the handsome manner it which it has been gotten out by the publishers. The reform inaugurated by this house, and two or three other first class publishers, in printing works with paper cover in elegant style will, in time, we hope, drive to the wall the miserable looking cheap novels issued by certain houses.

FARMING BY INCHES, and THE GIRLS OF FEVERSHAM, are two recent publications by A. K. Loring, Boston. The first named in brief shows the grand result of mind and muscle, accomplishing a great deal with little capital. Intelligence and tact are here displayed, also health and comfort attained, by a small outlay. "The Girls of Feversham" is a story of modern society, in a certain district in England, familiarly known by the author. The author, Florence Marryatt, is a daughter of Captain Marryatt, who inherits the talent of her gifted father.

## SPECIAL NOTICES.

☞**SCHENCK'S PULMONIC** SYRUP, SEAWEED TONIC AND MANDRAKE PILLS will cure Consumption, Liver Complaint and Dyspepsia, if taken according to directions. They are all three to be taken at the same time. They cleanse the stomach, relax the livor and put it to work; then the appetite becomes good; the food digests and makes good blood; the patient begins to grow in flesh; the diseased matter ripens into the lungs, and the patient outgrows the disease and gets well. This is the only way to cure consumption.
To these three medicines Dr. J. H. Schenck, of Philadelphia, owes his unrivaled success in the treatment of pulmonary Consumption. The Pulmonic Syrup ripens the morbid matter in the lungs, nature throws it off by an easy expectoration, for when the phlegm or matter is ripe a slight cough will throw it off, and the patient has rest and the lungs begin to heal.
To do this, the Seaweed Tonic and Mandrake Pills must be freely used to cleanse the stomach and liver, so that the Pulmonic Syrup and the food will make good blood.
Schenck's Mandrake Pills act upon the liver, removing all obstructions, relax the ducts of the gall bladder, the bile starts freely, and the liver is soon relieved; the stools will show what the Pills can do; nothing has ever been invented except calomel (a deadly poison which is very dangerous to use unless with great care,) that will unlock the gall bladder and start the secretions of the liver like Schenck's Mandrake Pills.
Liver Complaint is one of the most prominent causes of Consumption.
Schenck's Seaweed Tonic is a gentle stimulant and alterative, and the alkali in the Seaweed, which this preparation is made of, assists the stomach to throw out the gastric juice to dissolve the food with the Pulmonic Syrup, and it is made into good blood without fermentation or souring in the stomach.
The great reason why physicians do not cure Consumption is, they try to do too much; they give medicine to stop the cough, to stop chills, to stop night sweats, hectic fever, and by so doing they derange the whole digestive powers, locking up the secretions, and eventually the patient sinks and dies.
Dr. Schenck, in his treatment, does not try to stop a cough, night sweats, chills or fever. Remove the cause, and they will all stop of their own accord. No one can be cured of Consumption, Liver Complaint, Dyspepsia, Catarrh, Canker, Ulcerated Throat, unless the liver and stomach are made healthy.
If a person has consumption, of course the lungs in some way are diseased, either tubercles, abcesses, bronchial irritation, pleura adhesion, or the lungs are a mass of inflammation and fast decaying. In such cases what must be done? It is not only the lungs that are wasting, but it is the whole body. The stomach and liver have lost their power to make blood out of food. Now the only chance is to take Dr. Schenck's three medicines, which will bring up a tone to the stomach, the patient will begin to want food, it will digest easily and make good blood; then the patient begins to gain in flesh, and as soon as the body begins to grow, the lungs commence to heal up, and the patient gets healthy and well. This is the only way to cure Consumption.
When there is no lung disease and only Liver Complaint and Dyspepsia, Schenck's Seaweed Tonic and Mandrake Pills are sufficient, without the Pulmonic Syrup. Take the Mandrake Pills freely in all bilious complaints, as they are perfectly harmless.
Dr. Schenck, who has enjoyed uninterrupted health for many years past, and now weighs 245 pounds, was taken away to a mere skeleton, in the very last stage of Pulmonary Consumption, his physicians having pronounced his case hopeless and abandoned him to his fate. He was cured by the aforesaid medicines, and since his recovery many thousands similarly afflicted have used Dr. Schenck's preparation with the same remarkable success. Full directions accompany each, making it not absolutely necessary to personally see Dr. Schenck, unless patients wish their lungs examined, and for this purpose he is professionally at his Principal Office, Philadelphia, every Saturday, where all letters for advice must be addressed. He is also professionally at No. 32 Bond street, New York, every other Tuesday, and at No. 35 Hanover street, Boston, every other Wednesday. He gives advice free, but for a thorough examination with his Respirometer the price is $5. Office hours at each city from 9 A. M. to 3 P. M.
Price of the Pulmonic Syrup and Seaweed Tonic each $1.50 per bottle, or $7.50 a half dozen. Mandrake Pills 25 cents a box. For sale by all druggists. my19:j51-d&F

# CITY AND SUBURBAN.

The conclusion of the first and the second day's proceedings of the General Synod of the Reformed Presbyterian Church, at Cedarville, Ohio, reached us at too late an hour (3¼ o'clock) for publication in this issue.

**Committed.**—Alderman Shore yesterday committed Wm. Kife to jail on an information for larceny, preferred by Wm. Reismyer.

**Gildenfenny,** news dealer on Fifth avenue, sends us the late number of Peterson's Magazine and Galaxy for June. Both are capital numbers.

**Dr. Gleason** lectures in Allegheny City, at Excelsior Hall, this evening, on the Eye, Ear, Nose, Throat, causes and cure of Catarrh, &c., splendidly illustrated with Manakin's models, &c.

**Whipped.**—Eliza Raynor alleges her liege lord John, struck her in the mouth yesterday. The harmonious couple reside on Water street. Alderman Strain issued a warrant for the arrest of John.

**A Special Meeting of Councils** will be held to-day at two o'clock. We understand the object of the meeting is to take action on the Water Extension bill passed at the last session of the Legislature.

**Raised a Disturbance.**—Wednesday evening Levi Schinidder, residing in the Third ward, Allegheny, amused herself by applying vile threats to his neighbors, upon which he was arrested, locked up and fined five dollars yesterday by Mayor Drum.

**Disorderly.**—Richard Mossbaugh was arrested, Wednesday evening, by the Allegheny police on complaint of his family whom he had driven from the house. At the time he was under the influence of bock beer. Yesterday morning he was committed to jail in default of a fine of twenty dollars.

**Postponed.**—The Committee of Arrangements from the Grand Army of the Republic having in charge the presentation of the "Renegade of the Potomac," owing to circumstances beyond their control, are compelled to postpone the entertainment as announced by advertisement, for the present.

**Hymenial.**—A double wedding took place at the office of Alderman Donaldson, yesterday, the parties, residents of Beaver county, being a father united to a lady whose daughter was at the same time married to his son. The ceremony was performed by the courteous official in his usual happy manner, in the presence of the requisite number of witnesses. The connubially inclined people departed on a wedding tour immediately after the interesting affair had been concluded.

**Suit Entered.**—Our readers will remember the difficulty at a ball in Allegheny, between Richard Boley, doorkeeper, and Alfred Gebby, one of the Allegheny police, who wished to enter to arrest one of the attendants at the festive gathering. Boley, it will be recollected, prevented this, whereupon he was arrested by the officer, taken to the lock-up and next morning fined for interfering with an official in the discharge of his duty. As a sequel to the affair information was made yesterday by Boley against Gebby for assault and battery, before Alderman McMasters. Warrant issued.

### Kept the Clothing.

Some time since, according to Rosa Cuthbert's statement, she placed in the hands of Patrick and Mary Ann Reyan a lot of wearing apparel, valued at sixty-eight dollars and fifty cents, for safe keeping. When the articles were needed she made application for them but alleges the demand was refused, the Ryan's utterly disclaiming all knowledge of the articles. Hence information was made against them by Rosa, yesterday, before Alderman McMasters, for larceny by bailee. The parties are neighbors, residing on Washington street near Wylie. Warrant issued.

### Serious Accident.

William Duncan, a boy about twelve years of age, was severely injured yesterday by being run over by a wagon. He and his little brother were hauling staves from the Allegheny depot, and having loaded a one horse wagon, started out of the yard to Federal street, when in crossing the gutter the staves slipped from the top of the load, throwing the boy in front of the wagon, the wheel of which passed over him. He was taken up by a gentleman who was standing near, and removed to a house in the vicinity and medical attendance summoned. His injuries although severe are not of a serious nature, and he was able to go to his residence in the Third ward, Allegheny.

### A Blasted Affair.

Yesterday afternoon, several workmen were arrested on Anderson's Hill, Seventh ward, Allegheny, for blasting within the city limits without using the necessary precautions to prevent injury to citizens as prescribed by ordinance. The parties had been employed by others, who were engaged in building a house in the vicinity, and wished to get sufficient stone from the hillside to lay the foundation walls. At the hearing last evening the gentleman who preferred the information, upon which the arrest was made, withdrew it, the defendant paying the costs and promising to proceed no further in the annoyance.

### The Robinson Robbery.

The alleged robbery at Robinson & Co's., on Liberty street, Wednesday, an account of which was published in the GAZETTE of yesterday, was the subject of considerable "talk" on the street yesterday. It appears that a well known business man of the city was followed for a considerable length of time on the streets yesterday by a young man connected with the establishment, and at his instance was arrested and taken to the Mayor's office, charged with being a participant in the robbery. Fortunately, the gentleman was enabled to convince his Honor that he was not in the city at the time the robbery was perpetrated, and he was accordingly discharged.

The young man who was arrested on Wednesday evening by the Allegheny police, on suspicion of being one of the robbers, has since given his name as George Stevens. He said he had just arrived from Boston *en route* to Louisville, and had stopped at the Grant House. The Grant House register showed the name of George Stevens, from Lockport. The baggage seized with him also bore the same name.

Information was made against him for robbery by Mr. Robinson, upon which he is held for a hearing, to-morrow, at ten o'clock. The baggage of the other two suspected men was brought to the Mayor's office, from Neely's tavern, and searched, but revealed no clue to the owners. The money will hardly be recovered. In another column we publish a full description of the papers taken, which will be found of interest.

### Forgetfulness—Its Result.

Mr. Patrick Black forgot to read the papers yesterday morning. If he had read them, in all probability he would not to-day be mourning the loss of $680. The particulars of a neat little game were there set forth, and profiting by the experience of others Patrick might have saved himself from being swindled. He didn't, however, and the result was disastrous. He arrived in the city from Brady's Bend, Armstrong county, yesterday morning, with nine hundred and thirty dollars in his pocket, en route to Nashville, Tennessee, where he expected to invest it in land. He bought his ticket at the Union depot, and being of a communicative disposition, soon fell in with a genial fellow, respectably dressed and gifted with a pleasing flow of language, who was also destined for Nashville. Genial friend was a merchant in Nashville and knew all about the place. After conversing a while he wanted Patrick to accompany him down town to attend to the shipping of a couple of horses. Patrick accompanied him on the fatal journey. On Fifth avenue the stranger stepped into a carpet store to get a one thousand dollar greenback changed. In a few minutes he returned, unsuccessful, and asked the loan of $680, so that he might ship the horses immediately, and then go to the bank and get the change for his bill. Patrick produced the amount asked and invested it in this sure cure for greenness. The borrower then disappeared, telling him to wait a few minutes for his return. He waited, but waited in vain. He informed a policeman of the affair. Aroused all the detective energies concentrated at the Mayor's office. Described his friend, whom he now impolitely denominated a thief, as a short man, with a black moustache and dark clothing. Several innocent short men were quite abashed by the earnest attention with which they seemed to be regarded by the men of the mace. But among them all, the looked for individual could not be found. And so another name is added to the mournful list of misplaced confidences.

### Amusements.

## ALLEGHENY COUNCILS.

### Special Meeting—Report of a Special Committee on Improvements.

A special meeting of the Select and Common Council, of Allegheny city, was held yesterday, Thursday, May 20th, 1869, at half-past seven o'clock.

**Select Council.**

Members present: Messrs. Callery, Faulkner, Gwinner, Hall, Hartman, J. C. Patterson, Phillips, Riddle, Reiter and President McBrier.

Mr. Phillips, from the Special Committee, appointed to enquire into the expediency of erecting a public hall on the Third ward square, submitted the following report:

GENTLEMEN: Your Special Committee, to whom was referred the resolution relating to the propriety of erecting a public hall building in the Third ward square, would respectfully report that they had the matter under consideration, and while nothing was agreed upon further than appointing a Sub-Committee to consult with architects and ask them to prepare rough plans of improvements. Your Committee was fully convinced from data before them that such a building or series of buildings could be erected, comprizing a public hall and rooms for city offices, not only without levying a tax for the same, but providing a revenue almost equal to all the incidental resources of the city together. Your Committee will say that almost at the very outset of their labor, parties owning property in the vicinity, proposed to be enclosed, gave them to understand that the city have no authority to use said square for any such purposes as proposed. The opinion of the City Solicitor was had on this matter, which verifies the position of the property holders. Your Committee having complied with their instructions, respectfully ask to be discharged or further instructed.

Accompanying the report was the opinion of the City Solicitor, sustaining the view of the property owners relative to the improvement.

On motion of Mr. Hall the matter was laid over for the present.

### The Clearfield Bank Robbery.

The *Raftsmen's Journal* gives the following particulars of the robbery of the County National Bank at Clearfield, on the 18th inst, some account of which we have already published: "First they pulled the Lilley safe about two-thirds of its length outside of the other door, knocked off the combination knob, and then attempted to drive in and cut to pieces the conical-shaped chilled-iron center block in which the combination operates. Evidently having found this a fruitless effort, they then plied the heavy sledge-hammer with great force and vigor to the various portions of the front edges of the safe and door, but succeeded only in knocking off some small scales. Finally, however, it seems, they found a weak spot—a flaw, more than an inch in width and about five inches in length, in the iron of the door, to the left of the combination. The iron covering this defect in the door was only about a quarter of an inch in thickness, and the inside about half an inch. The outside portion over the flaw having been broken in with the sledge hammer, they next drove a heavy steel punch through the inner part and into the combination, breaking the lock into pieces. From appearances, the burglars evidently had a hard job on hand, and one which must have taken them perhaps more than an hour to accomplish, as the iron through which they forced their way is literally covered with dents and marks; and the great wonder is that they did not alarm the whole town by the great number of heavy blows they struck to secure their end. The robbery must have been committed between midnight and morning, and the amount secured by the burglars was $15,000 in money and $4,500 in government bonds.

"A telegraph dispatch was received here on Saturday, announcing arrest of two men at Mifflin, answering the description of those who obtained the meal at Dunbar, but were afterwards released. On Monday, another dispatch was received from Lock Haven, stating that two men had been arrested at that place, and who were adjudged to be two of the burglars, but we have no further information regarding them."

We may say, in addition, that two men, supposed to be the burglars, have been tracked to the neighborhood of Tyrone, where they disappeared in the thickets. Officer Dressler, of this city, has been for several days absent in that locality, on the hunt, but has, as yet, given no signs of success.

### Sheep Shearing Festival.

There were over two thousand persons present, and among them a number of candidates for the several county and other offices. The day was spent in the most agreeable manner possible, and will long be remembered by those who participated in the festivities of the occasion as one of the pleasant reminiscences of the past.

### Foreign Visitors.

Information having been received by His Honor, Mayor Brush, yesterday morning, that Mr. Thornton, the British Minister, Baron Læderer, the Austrian Minister, Mr. Francis Clare Ford, First Secretary, and Mr. Fane, Second Secretary of the British Legation, and Hon. Captain Ward, of the Royal Navy, who is also an attachee of the Legation, would arrive in this city via the Allegheny Valley Railroad, during the afternoon, a meeting of the business men and manufacturers was called to meet at the Mayor's office at eleven o'clock, to make arrangements for the reception of the distinguished visitors. In consequence of the short notice, however, there was but a slim attendance at the meeting, and no business was transacted; but at the suggestion of the Mayor, several prominent citizens assembled at the office and proceeded to the depot in carriages.

Colonel Wm. Phillips, President of the Allegheny Valley Railroad Company, dispatched a special train to meet and bring in the distinguished party, who were to have left Venango City at ten o'clock A. M. There was a delay, from some cause, and the train did not reach this city until half past four o'clock P. M. Upon their arrival at the depot, they were kindly received and welcomed by Mayor Brush and the citizens who accompanied him. The British and Austrian Ministers were not among the visitors. The following letter from Hon. Simon Cameron to Judge Kirkpatrick, introducing Mr. Secretary Ford, will explain their absence:

WILKESBARRE, PA., May 16, 1869.

DEAR JUDGE—This will be handed you by Mr. Ford, Secretary of the British Legation, who has with him Captain Ward, of the Royal Navy, and Mr. Fane, also of the Legation. They are part of the company of gentlemen who left Washington City to look at our mineral regions. The others were compelled to return from this place to Washington, and I regret to add I also must leave them at Northumberland. These gentlemen will reach Pittsburgh in a few days, and their objects is to see all that can be seen of the manufactories of your city. SIMON CAMERON.

The reception of the party at the depot was an informal one, consisting of handshaking all around, and words of welcome from the Mayor and others who were present. Among these we noticed Hons. James Veech and John M. Kirkpatrick, General Sweitzer, Josiah W. Ellis, Esq., Mr. M. Lyon, of Lyon, Shorb & Co., and others. The entire party proceeded to the Monongahela House, in carriages, where they were introduced to a number of our prominent manufacturers. This morning the visitors, escorted by Mayor Brush and a committee of citizens will visit some of the leading manufacturing establishments in the vicinity. They will remain in the city till Sunday, and will return to Washington City, via the Pennsylvania Railroad, stopping for a day in Johnstown to inspect the Cambria Iron Works. The gentlemen express themselves as highly pleased with their trip through the oil regions, and, indeed, with their experiences wherever they have gone.

### Ladies' Meeting—Arrangements for Decoration Day—Committees Appointed, &c., &c.

Yesterday afternoon another meeting of the patriotic ladies of the city and vicinity was held in City Hall, for the purpose of making arrangements to perform the work assigned them in the ceremonies of "Decoration Day." There was a much larger attendance than at the previous meeting, and the proceedings were marked with an enthusiasm and earnestness which augurs well for the success of the work undertaken.

In the absence of Mrs. McKee, Chairman of the former meeting, Mrs. John Watt was called on to preside.

Mr. Watt stated the principal subject for consideration was in reference to the entertainment of the orphan children coming from locations outside of the city to participate in the Decoration ceremonies. The Principals of the schools at Uniontown and other places had promised to allow the children under their care to visit the city on the occasion, provided suitable accommodations could be provided.

On motion it was resolved that the ladies present pledge themselves to take charge of the arrangements and provide entertainments for all visiting Orphan children. After some further discussion, the following Committees were appointed in reference to the matter:

Committee to provide supper on Friday, 28th and breakfast Saturday morning at some suitable place, to be hereafter designated: Mrs. Samuel McKee, Mrs. General A. L. Pearson, Mrs. Judge Stowe, Mrs. L. S. John, Mrs. Irwin, and Mrs. Riddle. Committee to provide dinner at Masonic Hall on Saturday: Mrs. John Watt, Mrs. H. B. Mann, Mrs. M. Cote, Mrs. George Miltenberger, Mrs. Rippey and Miss M. Galway.

It was stated that the trustees of Masonic Hall had kindly placed the Hall at the disposal of the ladies for Friday and Saturday, the 28th and 29th. The offer was accepted and the thanks of the ladies tendered to the trustees for their generosity.

Delegates from the First Ward Schools, Pittsburgh, reported that the schools had made arrangements for supplying a number of wreaths, boquets and flowers, in addition to which the Directors had promised to contribute a sum of money to be used as the Committee thought best.

It was decided to open Masonic Hall on Friday and Saturday for the reception of flowers and provisions, the ladies present at the meeting to be constituted a committee to procure these supplies.

Adjourned to meet Monday afternoon, at three o'clock.

### Borough of Millvale—Election.

**Dry Goods—Country Merchants.**

An anterprising dry goods firm, such as that of Messrs. Bates & Bell, 21 Fifth avenue, is a boon to country dealers. It saves them an amount of time, trouble and expense that a country dealer can alone appreciate. Messrs. Bates & Bell, for instance, keep constantly on hand a complete stock of all varieties of dry goods which, by purchasing in large quantities, and on those favorable opportunities that men of extensive trade can alone take advantage of, they are enabled to sell at very low wholesale rates—much lower frequently than small dealers could buy for in the East. Then the latter, by making their selections here at home, at 21 Fifth avenue, are saved all the expense and uncertainty attending orders sent to the East. Just now Messrs. Bates & Bell have full and varied stocks of linens, dress goods, silks, silk and cloth mantles, lace curtains, cassimeres and cloths. The rural merchant cannot fail to suit himself and please his patrons by replenishing his store with these goods. Messrs. Bates & Bell he will find inclined to liberal dealing, and prompt and satisfactory in filling orders. Send them in.
